

User Guide

Sam Miller

A guide on how to navigate <https://mumba.azurewebsites.net/>

User Creation and logging in

- When the site first loads you will be at the login page, you will first need to create a user account.
- Click the Register button in the top right corner.
- Enter the required information, a real email is not required, but it must be formatted as one. Click the register button.
- Enter the username and the password that were created and login.
- Once logged in you will be greeted with the "Your Boards" page

Boards

Creating Boards

- Click the red + button at the bottom right
- Supply a title for your board
- Click the create button

Opening Boards

- On the Your Boards page find the board you wish to open
- Click the open button that is listed for that board.

Editing Boards

- Click the Edit button after opening the board you wish to change.
- Supply the new title
- Click Update

Extra Notes

- Clicking in the blank space of a task card in the open board view will bring up their description. Press the x in the popup to dismiss it.
